PRECAUTIONS

Take Precaution

- To reduce the risk of fire, electric shock, and annoying interference, do not repair yourself. Please refer serving to qualified person.
- Some MP3/WMA files may not be playable.
- Keep lower volumes to concentrate on traffic and road conditions.
- If the battery is disconnected or discharged or changed, the preset memory will be erased and must be reprogrammed.
- Installation of unit is better at a horizontal position, or if it is at an angle, it may be not working at its best situation.
- Be sure to lower the volume before switching off the unit or the ignition key.

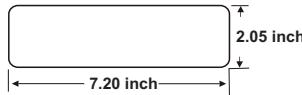

INSTALLATION

Installation Procedures

First complete the electrical connections and then check for correctness.

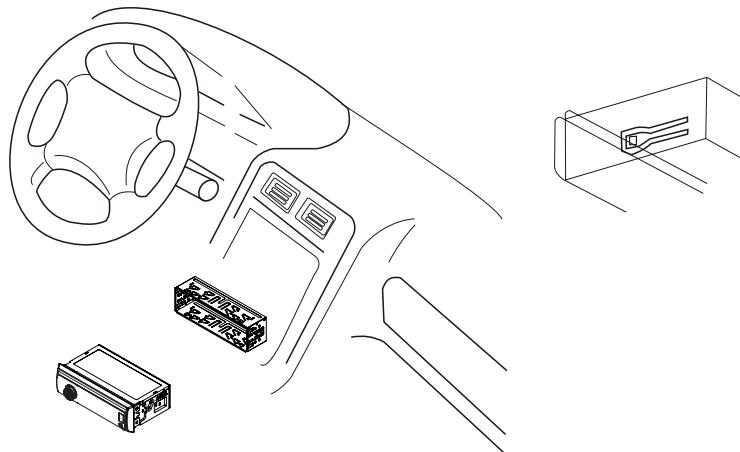

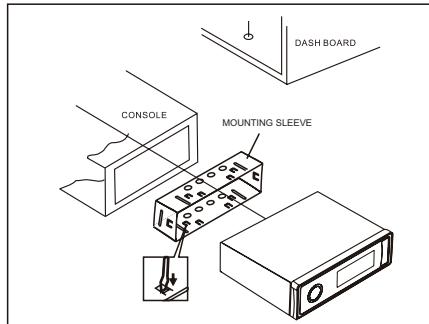

Installation Opening

This unit can be installed in any dashboard Having an opening as shown below.

Insert mounting collar into the dashboard and bend the mounting tabs out with a screwdriver.

Make sure that lock lever(※)is flush with the mounting collar(not projecting outward).

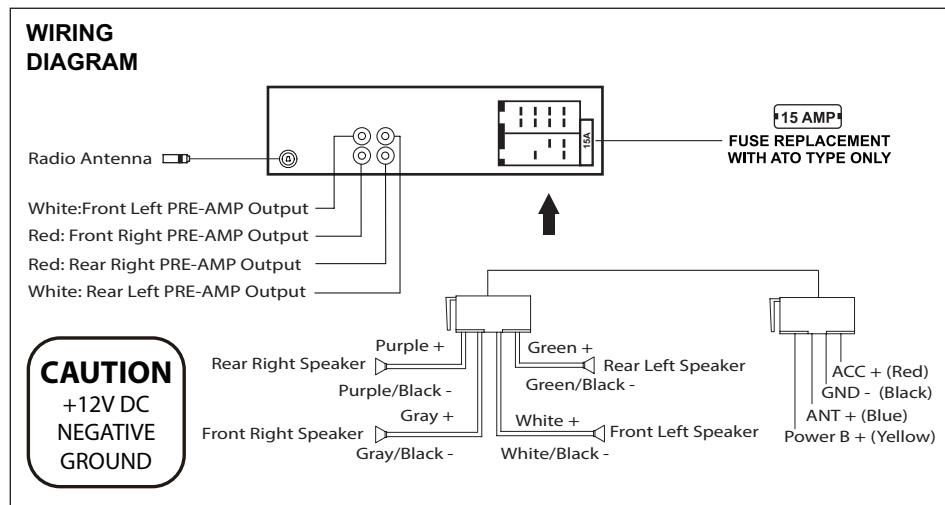

INSTALLATION(CONT.)

- Only use speakers with 4 ohms impedance.
- The maximum current of the auto antenna is 200mA.

Wiring Connections

Removal of the Main Unit

1. Remove the plastic trim out from the main unit.
2. Insert a bracket key into the left and right side of the main unit and draw the unit out of the mounting sleeve.

CONTROL PANEL BUTTON LOCATIONS

OPERATION

1 . Turn Unit on/off (PWR)

Press any button to turn on the unit. Press and hold the **VOL/PWR/SEL** button to turn off the unit.

- **Adjust the volume (VOL)**

Rotate the VOL knob to increase or decrease the volume level.

- **Adjust Menu Options (SEL)**

Press SEL button repeatedly to cycle through the following adjustable audio functions: BASS, TREBLE, BALANCE, FADER, EQ OFF, CLASS/ROCK/POP/ FLAT, LOUD ON/OFF, DX/LOC, STEREO/MONO, CLOCK 12/24, AREA US/EU.

- BASS: -7, -6, ~, -1, 0, +1, ~, +6, +7
- TREBLE: -7, -6, ~, -1, 0, +1, ~, +6, +7
- BALANCE: L7, L6, ~, L1, 0, R1, ~, R6, R7
- FADER: R7, R6, ~, R1, 0, F1, ~, F6, F7
- EQ(Equalizer) Setting: OFF, CLASS, ROCK, POP, FLAT
- Loudness: LOUD ON/OFF
- DX/LOCAL: Enables or disables the local broadcast mode (LOCAL).
- Stereo/Mono: Switches between MONO and STEREO reception mode for radio frequencies.
- CLOCK 12/24: Select between 12 hours and 24 hours display.
Note: If 12 hour display is selected , AM= Morning; PM= Afternoon
- AREA US/EU: This car radio is equipped the USA / Europe frequency.
Rotate the volume knob to switch between USA and Europe frequency.
The system will change the frequency setting in about 3 seconds.

- Rotate the VOL knob to adjust the selected item.

2. 3. Manual Tuning / Auto Seek

In the radio mode:

Press and hold the **>>** or **<<** button to enter the manual tuning mode. In manual tuning mode, briefly press the **>>** or **<<** button to search the next or previous frequency step by step.

Press the **>>** or **<<** button, the automatic search will start, it will search upward or downward for the strong signal radio station within the current band. The auto searching will stop until find a station.

- **Next/Previous Track; Fast Forward/Backward**

In the USB or SD card mode:

Briefly press the **>>** or **<<** button to play the next or previous track.

Press and hold the **>>** or **<<** button to fast forward or fast backward.

OPERATION

4. Change the Source (SRC)

Press this button to select the different modes: Radio, BT(Bluetooth), USB(with USB device inserted), SD(with SD card inserted) and AUX-IN(auxiliary input) modes.

5. Setting Time

Press the **CLK** button to display time. Press and hold the **CLK** button again, the hours digits start flashing on the display. Set hours using the **>> / <<** button.

Press the **CLK** button again. The minute digits start flashing.

Set minutes using the **>> / <<** button.

Press the **CLK** button to confirm your settings.

6. Change Bands

In radio mode, shortly press the **BAND** button to switch between the FM1(F1), FM2(F2), FM3(F3) and AM1(A1), AM2(A2) bands.

7. Automatic Store station/ Preset station scan (AMS)

Press and hold the **AMS** button for more than 2 seconds to select six strong stations and store them in the current band. The radio will automatically scan the current frequency and enter the six strongest stations into the preset memory positions for that band.

Briefly press the **AMS** button to recall each preset station that saved in the memories in each band.

• Select the track or file for playback in MP3 format

a) Press the **AMS** button to enter track search mode. The "TRK0000" will appear on the display.

b) Rotate the volume knob to select the "first number". Then press the **<<** button to move the "first number" to the left and enter the next number.

c) When the desired track number appears, confirm your selection by pressing **SEL** button (VOL knob).

8~13 To Store / Recall Preset Stations

The radio can be stored 6 preset stations for each band (FM1, FM2, FM3, AM1 and AM2) for a total of 30 preset stations.

- To memorize a station:

Press and hold one of the six preset buttons (1-6) to save a radio station.

- To recall a preset station:

Briefly press the respective station button (1-6) to recall the corresponding preset station.

• Play / Pause

Press the **▶||** button to interrupt the playback of a music title (pause function). Press this button again to continue the playback.

• Introduction Scan

Press the **INT** button to play the first 10 seconds of all track. Press again to stop the introduction scan, and play the current track.

• Repeating the track

Press the **RPT** button to toggle between RPT ALL (Play all track), RPT FLR (Continuously repeats all tracks in current folder) and RPT ONE (Continuously repeats current track).

• Playing all tracks in random

Press the **RDM** button. A random playback of all tracks will start. Press the button again to set the normal playback.

• Track/Folder Navigation

- Press the **-10/+10** buttons to jump 10 tracks backward or forward. It is required that over 10 tracks be available on the storage medium.

- Press and hold the **-10/+10** button to select the previous or the next folder. (If there are folders on the storage medium.)

14. Mute on/off

In power on mode, briefly press the **MUTE** button to toggle mute on or off. The muted state will be also released when the volume knob is used.

OPERATION

15. Loudness on/off

Press the **LOUD** button to turn on the loudness to reinforce the output of bass frequencies, press again to turn it off.

16. Hands-free Microphone

To receive your voice when you calling by using this bluetooth handsfree system.

17. Preset EQ (Equalizer)

Press the **EQ** button to toggle between EQ OFF, CLASS, ROCK, POP, FLAT.

18. LCD Display

19. USB Port / Micor SD Card Slot

Insert an SD card with the label to the right into the SD card slot, until it "clicks" into place.
The data will be automatically played.

• USB Connection

If you would like to playback data contained on a USB stick, please insert the stick into the USB port.
The data will be played automatically.

The USB port of this car radio is also designed for charging for iPhone / android mobile phone.
The charging current consumption is 1 ampere.

20. AUX Socket

Using this socket, it is possible to hear the sound of other playback devices such as MP3 players, CD players etc. through the car loudspeaker.

1. Please connect the external device with a 3.5 mm stereo jack plug to the AUX socket.
2. Press the **SRC** button repeatedly until "AUX IN" appears in the display.
3. You hear the playback from the external device via the loudspeakers. You can adjust the volume of the external device to a comfortable level with the volume control of this device.

21. Reset

Push the RESET button with a thin object with a pointed end to reset all parameters to factory default settings. This function may be used when the LCD does not display normally or sound is distorted, or when any of controls are disabled.

BLUETOOTH OPERATION

Pair and Connect

Prior to using the Bluetooth device as a handsfree system for a Bluetooth-enabled mobile phone for the first time, you must pair and connect the two devices as follows:

1. In any mode, prior to pairing and connecting, the BT logo flashes in the LCD indicating that no device is connected. To begin pairing, enable BT mode on your mobile phone.
2. When the phone finds the car audio system, the PLANET P370MB name will be displayed.
3. Choose the PLANET P370MB from the device list to pair and connect with the car audio system. Upon confirming, the BT logo will stop flashing.
4. When pairing is complete, the mobile phone audio will automatically transfer to the car audio system whenever a call is made or received, or when the mobile phone plays music.

Make a Call

- To make a call, dial the call directly from the paired mobile phone.

Redial Last Dialed Number

Press and hold the ↲ button on the control panel to redial the last dialed phone number.

Answer a Call

- When the mobile phone is called, the incoming telephone number displays in the LCD.
- To receive the call, press the ↲ button on the control panel or remote control.

Reject or End a Call

To reject the call or end an active call, press the ↲ button.

Switch Audio Between Car and Phone

During a call, press the **VOL** knob/button to switch the audio source from the car audio system back to your mobile phone.

Adjust Talk Volume

- During a call, use **VOL** knob or **VOL +** and **VOL -** buttons to adjust the volume level.
- Use the **MUTE** button to mute sound.

Audio Streaming (A2DP)

1. Press the **SRC** button to enter BT mode and display pause in the LCD display.
2. When a mobile device is paired, music played through that device will automatically be heard through the car audio system.
3. Press the **>>** or **<<** button to play the next or previous song/file on the mobile phone.
4. Press the **▶||** button to pause or resume music playback.

TROUBLESHOOTING

If you suspect something is wrong, immediately switch power off. Do not use the unit in abnormal condition, for example without sound, or with smoke or foul smell, can cause fire or electric shock.

Immediately stop using it and call the store where you purchased it. Never try to repair the unit by yourself because it is dangerous to do so.

■ General

1) Car's engine switch is not on.

Turn you car's key to ACC or ON.

2) Cable is not correctly connected.

Check the connection.

3) Fuse is burnt.

Replace fuse.

4) Volume is in mute or minimum.

Check volume or mute on/off, adjust volume to a desired level.

5) Sound skips.

The installation angle is more than 30°. Adjust the installation angle less than 30°.

6) The operation keys do not work.

The built-in micro- computer is not operating properly due to noise. Press the RESET button to restore the program to zero.

■ Radio

1) Much noise in broadcasts.

Station or signal is too weak. Select other stations of stronger signal level.

2) The antenna cable is not connected.

Insert the antenna cable firmly into the antenna socket of this car radio.

3) Preset station is reset.

Battery cable is not correctly connected. Connect the battery cable to the terminal that is always live.

■ USB/SD

USB or SD card is connecting but no sound

a) USB or SD card connection is not good. Take it out and insert again.

b) USB or SD card is damaged or no music file inside. Change to another USB or SD card, or record music inside it.
